## **dwp | design worldwide partnership Executive Director/Founder talks at The Office Exhibition 2012 – Eco Matters**

Scott Whittaker, Executive Director/Founding Partner of world-class architecture and interior design firm **dwp** | design worldwide partnership ([www.dwp.com](http://www.dwp.com)), was invited to speak and be a panelist at The Office Exhibition 2012 talks, held at the Dubai World Trade Centre, from 15<sup>th</sup>-17<sup>th</sup> May 2012. **dwp** is passionate about eco-design and its integration into architectural and interior design and has plenty of experience in this field and was delighted in the opportunities to share insights into eco matters.

Over the 3-day event, Scott took part in the talks themed around Local Perspectives on Innovative Design executive roundtable discussions, participated as a panelist in the 'Green Day' talks and case studies, and held a keynote speech on 'Innovative Design Embracing

Cultural Sensitivities’, which was warmly received. “The way forward now is for more and stronger environmental legislation, on a worldwide scale. If there is a strong environmental regulation, then people know that it’s no longer just an option – it’s a must,” Scott commented.

Scott, together with **dwp**, is an avid campaigner for incorporating eco-solutions into designs for all industries, and demonstrated how dwp has, time and again, provided workspace solutions that incorporate future-friendly, work-efficient and culture-sensitive design, into brand-oriented, aesthetically impactful corporate environments. “We believe the power comes from the people. If employees demand a greener work environment, then companies will sit up and take note,” advocates Scott.
