Maysan Towers, Abu Dhabi, wins Cityscape Best Future Residential Development Award 2011

dwp's Design for Residential Architectural Oasis in Abu Dhabi receives Prestigious MENA Industry Acclaim at Cityscape Abu Dhabi 2011, the Region's Premier Real Estate Investment & Development Event...

o o o o o o

Located in the heart of the emerging residential district of Maysan, on Reem Island in ever-expanding Abu Dhabi, these two sculptural residential towers have been designed by the world-class architecture and interior design firm **dwp**, in a cross-border collaborative endeavour.

*"We, at **dwp**, are very proud to have won this award, as the Cityscape Awards are probably the most prestigious in the Middle East region. To have won this award for Maysan Towers underlines that our new and different design approach here is recognised and appreciated by the award panel, our design industry peers and clients,"* stated Brian Hillesdon, MD for dwp UAE.

At 38 and 36 storeys respectively, Maysan Towers provide a vivid addition to the urban masterplan framework and ambitious sustainable agenda of the capital city of the UAE. The architectural design theme draws influence from the unique natural topography of Al Ain, often referred to as the Garden City of the Gulf. The architectural detailing thus echoes unique green oases, dramatic rock overhangs and planar mountain plateaus. Maysan Towers offers extroverted living spaces, sheltered from the strong sun by projecting overhangs. This ambitious state-of-the-art development, with a gross floor area of 64,500sqm, employs sustainable strategies, supporting a holistic green approach to building design and compatibility with existing natural site conditions and the cultural identity of Abu Dhabi.

dwp expressed their gratitude to renowned developer **Aabar** for their continued support and vital inspiration. **Aabar** were quoted as saying: *“The award is testament to the dedication and team work invested by all partners and staff involved; and we thank dwp for their attention to detail and for maintaining our vision throughout the development of this iconic project.”*

Scheduled commencement of construction for Maysan Towers, Reem Island, Abu Dhabi, is set for mid 2011.
